

Corpus Christi Covid-19 Policy and Response Plan

This document has been prepared on the basis of current public health advice and will continue to be updated throughout the year as further public advice is received.

1. Introduction

This *Covid-19 Response Plan* is designed to support the staff and Board of Management (BOM)/Education Training Board (ETB) in putting measures in place that will prevent the spread of Covid-19 in Corpus Christi Girls National School

The Covid-19 Response Plan details the policies and practices necessary for our school to meet the Government's '*Return to Work Safely Protocol*', the Department of Education and Skills plan for school reopening and to prevent the spread of Covid-19 in the school environment. The plan incorporates current advice about measures to reduce the spread of Covid-19 in the community issued by the National Public Health Emergency Team (NPHE).

It is important that the resumption of school-based teaching and learning and the reopening of school facilities comply with the protocol to minimise the risk to students, staff and others. As the advice issued by NPHE continues to evolve, this protocol and the measures management and staff need to address may also change.

The response plan will support the sustainable reopening of our school where the overriding objective is to protect the health of staff and pupils while promoting the educational and development needs of the children in the school.

In line with the Return to Work Safely Protocol, the key to a safe and continued return to work, and reopening of our schools requires strong communication and a shared collaborative approach between the Board of management, staff, pupils and parents.

2. Contents

This document aims to provide details of:

1. Introduction
2. Corpus Christi COVID Policy Statement
3. Contents
4. Reviewing the safe operation of schools
5. Infection Prevention Control Measures- to prevent the introduction and spread of COVID-19.
6. The Impact of COVID-19 on school activities
7. Hygiene and Cleaning in Schools
8. Dealing with a suspected case of COVID-19
9. Special Educational Needs
10. Staff Duties
11. COVID-19 related absence management
12. Employee Assistance and Wellbeing Programme

The assistance and cooperation of all staff, pupils, parents/guardians, contractors and visitors is critical to the success of the plan.

Every effort is made to ensure the accuracy of the information provided in this document. However, should errors or omissions be identified, please notify us so that appropriate measures can be taken to rectify same.

Note: The plan is a live working document and may be reviewed and amended to take into account new guidance from www.Gov.ie, www.dbei.ie, www.hse.ie, www.hpsc.ie, www.hsa.ie; www.education.ie;

3. Corpus Christi Girls National School COVID-19 Policy Statement

This COVID-19 policy outlines our commitment as a school to implement the plan and help prevent the spread of the virus. The policy will be signed and dated by the Principal and Chairperson of the Board of Management and brought to the attention of staff, pupils, parents and others.

COVID 19 Policy Statement

Corpus Christi Girls National School is committed to providing a safe and healthy workplace for all our staff and a safe learning environment for all our pupils. To ensure that, we have developed the following COVID19 Response Plan. The BOM and all school staff are responsible for the implementation of this plan and a combined effort will help contain the spread of the virus. We will:

- continue to monitor our COVID-19 response and amend this plan in consultation with our staff
- provide up to date information to our staff and pupils on the Public Health advice issued by the HSE and Gov.ie
- display information on the signs and symptoms of COVID-19 and correct handwashing techniques
- agree with staff, a worker representative who is easily identifiable to carry out the role outlined in this plan in relation to summer provision
- inform all staff and pupils of essential hygiene and respiratory etiquette and physical distancing requirements
- adapt the school to facilitate physical distancing as appropriate in line with the guidance and direction of the Department of Education and Skills
- keep a contact log to help with contact tracing
- ensure staff and pupils engage with the induction / familiarisation briefing provided by the Department of Education and Skills
- implement the agreed procedures to be followed in the event of someone showing symptoms of COVID-19 while at school
- provide instructions for staff and pupils to follow if they develop signs and symptoms of COVID-19 during school time
- implement cleaning in line with Department of Education and Skills advice

All school staff will be consulted on an ongoing basis and feedback is encouraged on any concerns, issues or suggestions.

This can be done through the Lead Worker Representative(s), who will be supported in line with the agreement between the Department and education partners.

Signed: *Aidan Savage*

Signed: *Niamh Greene*

Chairperson of the Board of Management

Principal

Date: 23/08/2021

4. Reviewing the Safe operation of the school

The Board of Management aims to facilitate the resumption of school- based teaching and learning and the return to the workplace of staff. The return to the work must be done safely and in strict adherence to the advice and instructions of public health authorities and the Government.

Details for the reopening of the school facility and the applicable controls are outlined in this document.

a. School Buildings

Before re-opening schools in the new school year schools are reminded to check the following:

- Does the water system need flushing at outlets following low usage to prevent Legionella disease;
- Has school equipment and mechanical ventilation been checked for signs of deterioration or damage before being used again;
- Have bin collections and other essential services resumed

b. Signage

The school is required to display signage outlining the signs and symptoms of COVID-19 and to support good hand and respiratory hygiene.

The school displays posters in prominent areas such as offices, corridors, staffroom area, classrooms and toilets.

c. Making Changes to School Layout

Maintaining physical distancing in the school environment is recommended as one of the key infection prevention control measures to minimise the risk of the introduction and spread of COVID-19.

The school has reconfigured classrooms and other areas as necessary to support physical distancing in line with the guidance.

Procedure for Returning to Work (RTW)

In order to return to the workplace, staff must complete a **Return to Work (RTW)** form, which is available electronically or from the Principal.

A RTW form should be completed and returned to the school before returning to work. Schools request staff to confirm that the details in the Return to Work Form remain unchanged following subsequent periods of closure such as school holidays.

Induction Training

On receipt of the completed form the Principal will provide: details of the **Induction Training** for completion by all new staff prior to the return to the workplace and details of any additional health and safety measures in place in the school to facilitate the staff member's return to the school facility.

Details of the working arrangements that apply to the very high-risk school staff, is in accordance with those applying for the public service generally, and is detailed in the relevant Department of Education circulars available on the Department's website.

Lead Worker Representative

Responsibility for the development and implementation of the Covid-19 Response Plan and the associated control measures lies primarily with the Board of Management and the School Leadership.

The Return to Work Safely Protocol provides for the appointment of a Lead Worker Representative (LWR) in each workplace. The LWR will work in collaboration with the employer to assist in the implementation of measures to prevent the spread of COVID -19 and monitor adherence to those measures and to be involved in communicating the health advice around COVID-19 in the workplace.

Responsibility for the development, updating and implementation of the COVID-19 Response Plan and the associated control measures lies primarily with the Board of Management.

Strong communication and a shared collaborative approach is key to protecting against the spread of COVID-19 in schools, and looking after the health, safety and wellbeing of staff and pupils. Adherence to the Work Safely Protocol will only be achieved if everyone has a shared responsibility in implementing the measures contained within the Protocol in their place of work.

If a staff member has any concerns or observations in relation to the COVID-19 Response Plan, control measures or the adherence to such measures by staff, pupils or others he/she should contact the lead worker(s) who will engage with the principal/BOM.

If a staff member has any concerns or observations in relation to the Covid-19 Response Plan and control measures or the adherence to such control measures by staff, parents/guardians, contractors or visitors, he/she should contact the lead worker(s) who will engage with the Principal/BOM.

In summary, the role of the LWR is to:

- Represent all staff in the workplace regardless of role, and be aware of specific issues that may arise in respect of different staff cohorts;
- Work collaboratively with school management to ensure, so far as is reasonably practicable, the safety, health and welfare of employees in relation to COVID-19;
- Keep up to date with the latest COVID-19 public health advice;
- In conjunction with school management, promote good hygiene practices such as washing hands regularly and maintaining good respiratory etiquette along with maintaining social distancing in accordance with public health advice;
- Assist school management with implementing infection prevention control measures to suppress COVID-19 in the workplace in line with the Work Safely Protocol and current public health advice;

- In conjunction with school management, monitor adherence to measures put in place to prevent the spread of COVID-19;
- Conduct regular reviews of safety measures;
- Report any issues of concern immediately to school management and keep records of such issues and actions taken to rectify them;
- Consult with the school management on the school's COVID-19 Response Plan in the event of someone developing COVID-19 while in school including the location of an isolation area and a safe route to that area;
- Following any incident, assess with the school management any follow up action that is required;
- Consult with colleagues on matters relating to COVID-19 in the workplace;
- Make representations to school management on behalf of their colleagues on matters relating to COVID-19 in the workplace.

Name(s) of Lead Worker representative:	Contact details
Kathleen Walley	

All staff, parents/guardians, contractors and visitors have a responsibility both as individuals and collectively to have due regard for their own health and safety and that of others and to assist with the implementation of the Covid-19 Response Plan and associated control measures.

Safety Statement and Risk Assessment

COVID-19 represents a hazard in the context of health and safety in the school environment. A risk assessment to identify the control measures required to mitigate the risk of COVID-19 in school should be completed.

It is important that schools review their emergency procedures involving, fire safety, first aid, accidents and dangerous occurrences to consider any new risks that arise due to the school's COVID-19. Any changes to the schools existing emergency procedures should be documented.

The school will also review their existing risk assessments to consider any new risks that arise due to the school's COVID-19 Response Plan. Any changes to the school's current risk assessments will be documented.

First Aid/Emergency Procedure

The standard First Aid/emergency procedure shall continue to apply in Corpus Christi GNS. In an emergency or in case of a serious incident, schools should call for an ambulance or the fire brigade on 112/999 giving details of location and type of medical incident.

Access to School and Contact Log

Access to the school building will be in line with agreed school procedures.

Arrangements for necessary visitors such as contractors and parents will be restricted to essential purposes and limited to those who have obtained prior approval from the principal. The Department of Education Inspectorate may also need to visit schools and centres for education to support them as appropriate in the implementation of public health advice relating to creating a safe learning and working environment for all.

The prompt identification and isolation of potentially infectious individuals is a crucial step in restricting the spread of the virus and protecting the health and safety of the individuals themselves and other staff, contractors and visitors at the workplace. A detailed sign in/sign out log of those entering the school facilities will be maintained. The school will maintain a log of staff and pupil contacts.

5. Infection Prevention Control Measures - To prevent Introduction and Spread of COVID-19 in Schools

One of the key messages to manage the risks of COVID-19 is to do everything practical to avoid the introduction of COVID-19 into the school. If infection is not introduced it cannot be spread. The risk of spreading the infection once introduced exists in all interpersonal interactions; pupil-pupil, teacher-teacher and teacher- pupil and must be managed in all settings.

A range of essential control measures have been implemented to reduce the risk of the spread of Covid-19 virus and to protect the safety, health and welfare of staff, pupils, parents and visitors as far as possible within the school. The control measures shall continue to be reviewed and updated as required on an ongoing basis.

Know the Symptoms of COVID-19

In order to prevent the spread of COVID-19 it is important to know and recognise the symptoms of coronavirus (which includes the DELTA variant).

Common symptoms of coronavirus include:

- a fever (high temperature - 38 degrees Celsius or above).
- a new cough - this can be any kind of cough, not just dry.
- shortness of breath or breathing difficulties.
- loss or change in your sense of smell or taste – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal
- Fatigue
- Aches and Pains

Other uncommon symptoms of coronavirus include:

- sore throat
- headaches
- runny or stuffy noses
- feeling sick or vomiting
- diarrhoea

Infection with the virus that causes COVID-19 can cause illness, ranging from mild to severe, and, in some cases, can be fatal. It can take up to 14 days for symptoms to show. They can be similar to symptoms of [cold](#) and [flu](#).

If you have any symptoms of COVID-19 (coronavirus), self-isolate (stay in your room) and phone your family doctor straight away to see if you need a free COVID-19 test.

Getting an early diagnosis means, you can get the help you need and take steps to avoid spreading the virus, if you have it.

For the complete list of symptoms, please refer to the HSE [Website](#). Symptoms may be subject to change so regular review of the HSE Website is advised. If you **do not** have symptoms, you can get a free COVID-19 (coronavirus) test at a [COVID-19 walk-in test centre](#).

COVID-19 Tracker App

COVID Tracker app is a free and easy-to-use mobile phone app that will:

- alert you if you have been in close contact with someone who has tested positive for COVID-19 (coronavirus)
- keep other app users safe by alerting them if you test positive for COVID-19
- give you advice on what to do if you have symptoms

You can download the free app from [Apple's AppStore](#) or the [Google Play store](#)

Employers and workers must keep themselves up to date on Public Health information as this can be updated on a regular basis. Public Health information on close contacts, casual contacts and testing is available from the HSE website.

It is critical that staff, pupils, parents and visitors are aware of, and adhere to, the control measures outlined and that they fully cooperate with all health and safety requirements.

The best ways to prevent the spread of COVID-19 in a workplace or any setting is to practice physical distancing, adopt proper hand hygiene, follow respiratory etiquette and increase ventilation.

Staff should note that they have a legal obligation under Section 13 of the Safety, Health and Welfare at Work Act 2005 to comply with health and safety requirements and to take reasonable care for the health and safety of themselves, their colleagues and other parties within the workplace.

The best way to prevent the spread of COVID-19 in a school is to minimise the risk of introduction of the disease into the school setting in the first place. This can be achieved through the following measures:

- Advise staff and pupils that have symptoms not to attend school, to phone their doctor and to follow HSE guidance on self-isolation;
- Advise staff and pupils to self-isolate or restrict their movements at home if they display any signs or symptoms of COVID-19 and contact their family doctor to arrange a test
- Advise staff and pupils, to follow the HSE advice if they are a close contact of a suspected/ confirmed case of Covid-19.
- If they have travelled outside of Ireland; in such instances staff and pupils are advised to consult and follow latest Government advices in relation to foreign travel.
- Advise staff and pupils that develop symptoms at school to bring this to the attention of the Principal promptly;
- Ensure that staff and pupils know the protocol for managing a suspected case of COVID-19 in school

- Advise staff and pupils to cooperate with any public health officials and the school for contact tracing purposes and follow any public health advice in the event of a case or outbreak in the school;
- Everyone entering the school building needs to perform hand hygiene with a hand sanitiser;
- Visitors to the school during the day should be by prior arrangement and should be received at a specific contact point;
- Physical distancing (of 2m) should be maintained between staff and visitors where possible.

Staff, pupils and visitors should at all times adhere to the up to date advice and instructions of the public health authorities in relation to protecting oneself and others against the risk posed by the Covid19 virus.

The Department of Education and Skills will ensure all updated advice is circulated to schools. Corpus Christi Girls National School will arrange for this advice to be circulated to staff, pupils and visitors in a timely manner.

Managing the Risk and Spread of COVID-19

a. Wash your Hands Frequently

Staff and pupils should understand why hand hygiene is important as well as when and how to wash their hands.

Schools should promote good hygiene and display posters throughout the schools on how to wash your hands. Follow the HSE guidelines on handwashing:

<https://www2.hse.ie/wellbeing/how-to-wash-your-hands.html>

Frequency of Hand Hygiene

Pupils and staff should perform hand hygiene:

- On arrival at school;
- Before eating or drinking;
- After using the toilet;
- After playing outdoors;
- When their hands are physically dirty;
- When they cough or sneeze.

b. Hand Hygiene and Hand Sanitisers

Hand hygiene can also be achieved by the use of a hand sanitisers (when hands are clean).

Hand sanitisers are more readily deployed in school settings to avoid disruption to teaching and learning and to avoid congestion of staff and pupils waiting to use hand washing facilities.

They will be available at entry and exit points and in each classroom.

c. Avoid Touching Eyes, Nose and Mouth

Why? Hands touch many surfaces and can pick up viruses. Once contaminated, hands can transfer the virus to your eyes, nose or mouth.

d. Respiratory hygiene

Ensure all members of the school community follow good respiratory hygiene. This means covering your mouth and nose with a tissue or your bent elbow when you cough or sneeze. Then dispose of the used tissue immediately and safely into a nearby bin.

By following good respiratory hygiene, you protect the people around you from viruses such as cold, flu and Covid-19

d. Physical Distancing

Physical distancing can be usefully applied in primary and special school settings allowing for some flexibility when needed. It must be applied in a practical way to recognise that the learning environment cannot be dominated by a potentially counterproductive focus on this issue. Physical distancing will look different across the various ages and stages of learning. Care should be taken to avoid generating tension or potential conflict and some flexibility in the implementation of measures may be required at times.

It is also recognised that it is not always possible for staff to maintain physical distance from pupils and it is not appropriate that they would always be expected to do so where this could have a detrimental impact on the pupil i.e. if a child sustains an injury and requires first aid.

However, where possible staff should maintain a minimum of 1m distance and where possible 2m. They should also take measures to avoid close contact at face to face level such as remaining standing rather than sitting beside/crouching down.

Physical distancing falls into two categories:

Increasing separation

- Reconfigure class spaces to maximise physical distancing
- Utilise and reconfigure all available space in the school in order to maximise physical distancing
- Rooms are clear of any unnecessary furniture/shelves etc. on the walls

Decreasing interaction

- In primary schools a distance of 1m should be maintained between desks or between individual pupils. It is recognised that younger children are unlikely to maintain physical distancing indoors. Therefore, achieving this recommendation in the first four years of primary school, is not a pre-requisite to reopening a primary school to all pupils.
- The risk of infection may be reduced by structuring pupils and their teachers into Class Bubbles (i.e. a class grouping which stays apart from other classes as much as possible) and discrete groups or “Pods” within those class bubbles, to the extent that this is practical.
- If the class is divided into Pods, there should be at least (1m distance) between individual Pods within the Class Bubble and between individuals in the pod, whenever possible.

Physical Distancing outside of the classroom and within the school

School drop off/collection

- Arrangements for dropping off/collecting pupils are arranged to encourage physical distancing of 2m where possible.
- Walking/cycling to school is encouraged as much as possible.
- Arrangements are made to maintain a distance of 2m between parents and guardians and between parents and guardians and school staff.

- The aim of any arrangements is to avoid congregation of people at the school gates where physical distancing may not be respected.
- Staggered drop off/pick up times are in place to reduce congestion.
- Additional access points are used to reduce congestion.
- Consideration has been given to where pupils congregate as they arrive at school. Pupils are encouraged to head straight to their line up area and remain socially distanced on the footprints.

Staff

- A distance of 2m is recommended for physical distancing by staff. This is particularly relevant to distancing between adults when they are not engaged in teaching such as the staff room and arriving to work.
- If 2m cannot be maintained in staff groups, as much as distance as is possible and updated guidance on face covering should be observed.
- Physical distancing is observed between staff members within the staff room through the use of staggered breaks etc.
- Staff meetings should be held remotely or in small groups or in large spaces to facilitate physical distancing.
- A no hand shaking policy has been implemented.
- The gathering of school staff is minimised at the beginning or end of the school day.
- Staff can rotate between areas/classes but this is minimized where possible.

Staffroom

- Physical distancing is applied in staffroom facilities

Corridors and Stairwells

- Briefly passing someone in a hall is very unlikely to contribute significantly to the spread of infection if people do not have physical contact and avoid informal group discussions.

Yard/Supervision

- The risk of transmission from contact with outside surfaces or play areas is low.
- Play time/outdoor activities have been adjusted to minimise crowding at the entrance and exits.
- It is not possible to maintain physical distancing when pupils in primary schools play together outdoors, but pupils remain in their class bubbles in their designated area in the yard.
- Break times and outdoor access are staggered.
- Children are encouraged to perform hand hygiene before and after outdoor activities.
- Equipment sharing is minimised and shared equipment is cleaned between uses by different people.

Ventilation

The Department has published guidance setting out the practical steps for good ventilation in accordance with public health advice '*Practical Steps for the Deployment of Good Ventilation Practices in Schools*'. The guidance sets out an overall approach for schools that windows should be open as fully as possible when classrooms are not in use (e.g. during break-times or lunch-times (assuming not in use) and also at the end of each school day) and partially open when classrooms are in use. The

guidance provides that good ventilation can be achieved in classrooms without causing discomfort, particularly during cold weather. The Department has also published guidance regarding on how these practical steps measures can be supplemented and enhanced by the use of Carbon Dioxide (CO₂) monitors.

Use of PPE

The updated advice from the HPSC to the Department of Education has recommended that face coverings should be worn by staff members where it is not possible to maintain a physical distance of 2 metres from other staff, parents, essential visitors or pupils. The Department has accepted this recommendation. Accordingly, it is now a requirement for face coverings to be worn by staff members where it is not possible to maintain a physical distance of 2 metres from other staff, parents, essential visitors or pupils.

Workers are trained in the proper use, donning/doffing, cleaning, storing and disposal of PPE. The HPSC has produced posters and videos on the correct donning and doffing of PPE available on the HPSC and HSA websites

https://www.hsa.ie/eng/topics/covid-19_coronavirus_information_and_resources/covid-19_business_supports/business_supports/hse-hpsc_posters_and_videos/

PPE will also need to be used at certain work activities or work areas. These might include roles such as:

- Performing intimate care
- Where a suspected case of COVID-19 is identified while the school is in operation
- Where staff are particularly vulnerable to infection but are not in the list of those categorised as people in very high risk groups, or may be living with people who are in a very high risk category
- Administering first aid

Where staff provide healthcare to children with medical needs in the school environment they should apply standard precautions as per usual practice.

Face Coverings/Masks

The wearing of face coverings or masks in general is not a substitute for other measures outlined below (physical distancing, hand hygiene, respiratory etiquette, adequate ventilation, minimising contacts) but they may be used in addition to these protective measures, especially where maintaining physical/social distancing is difficult.

Cloth face coverings act as a barrier to help prevent respiratory droplets from travelling into the air and onto other people when the person wearing the face coverings coughs, sneezes, talks or raises their voice. Cloth face coverings are therefore intended to prevent transmission of the virus from the wearer (who may not know that they are infected) to those with whom they come into close contact.

In childcare and educational settings, the implementation of mandatory face-covering usage is challenging, as it is known that children will have a lower tolerance and ability to use the face covering properly, and use of face-coverings by teachers and staff caring for very young children may cause undue stress to the children.

It is not recommended that children attending primary school wear face-coverings.

It is now a requirement for face coverings to be worn by staff members where it is not possible to maintain a physical distance of 2 metres from other staff, parents, essential visitors or pupils.

In certain situations, the use of clear visors may be considered, for example staff interacting with pupils with hearing difficulties or learning difficulties.

Cloth face coverings should not be worn by any of the following groups:

- Any person with difficulty breathing
- Any person who is unconscious or incapacitated
- Any person who is unable to remove the face-covering without assistance
- Any person who has special needs and who may feel upset or very uncomfortable wearing the face covering, for example persons with intellectual or developmental disabilities, mental health conditions, sensory concerns or tactile sensitivity.

Further advice from the HPSC on the use of face coverings in educational settings was received on the 6th August 2020. This advice is available [here](#).

All staff wearing face coverings should be reminded to not touch the face covering and to wash or sanitise their hands (using hand sanitiser) before putting on and after taking off the face covering.

Information should be provided on the proper use, removal, and washing of cloth face coverings

<https://www.youtube.com/watch?v=T6ZqdpLfSqw>

Cloth face coverings should be washed after every day of use and/or before being used again, or if visibly soiled.

Face coverings should not be worn if they are wet. A wet cloth face covering may make it difficult to breathe.

Whilst staff may wish to utilise their own face covering on a day-to-day basis, the school has an available stock of additional disposable or multi-use face coverings for staff in case a back-up face covering is needed throughout the day or where required on an ongoing basis.

Medical Grade Masks

The school provides medical grade masks in the EN14683 category to all SNAs, teachers and those staff by necessity that need to be in close and continued proximity with pupils with intimate care needs.

Wearing a face covering or mask does not negate the need to stay at home if symptomatic.

Gloves

The use of disposable gloves in the school by pupils or staff is not generally appropriate but may be necessary for cleaning, intimate care settings and when administering first aid. Routine use does not protect the wearer and may expose others to risk from contaminated gloves.

Routine use of disposable gloves is not a substitute for hand hygiene.

Aprons

Aprons may also be appropriate in certain circumstances including for intimate care needs or for staff assigned to cleaning an area where a suspected or confirmed case of COVID-19 was present.

6. Impact of COVID-19 on certain school activities

Choir/Music Performance

Choir practices/performances and music practices/performances involving wind instruments may pose a higher level of risk and special consideration should be given to how they are held ensuring that the room is well-ventilated and the distance between performers is maintained.

Sport Activities

Schools should refer to the HPSC guidance on Return to Sport. Link to return to sport protocols is found [here](https://www.gov.ie/en/publication/07253-return-to-sport-protocols/).

<https://www.gov.ie/en/publication/07253-return-to-sport-protocols/>

Shared Equipment

Toys

All toys should be cleaned on a regular basis for example weekly. This will remove dust and dirt that can harbour germs.

Toys that are visibly dirty or contaminated with blood or bodily fluids should be taken out of use immediately for cleaning or disposal.

If cloth or soft toys are used they should be machine washable.

Jigsaws, puzzles and toys that young pupils to those with special educational needs may be inclined to put into their mouths should be capable of being washed and disinfected.

All play equipment should be checked for signs of damage for example breaks or cracks. If they cannot be repaired or cleaned they should be discarded.

Clean toys and equipment should be stored in a clean container or clean cupboard. The manufacturer's instructions should always be followed.

At this time soft modelling materials and play dough where used should be for individual use only.

Art – Where possible pupils should be encouraged to have their own individual art and equipment supplies.

Electronics – Shared electronic devices such as tablets, touch screens, keyboards are cleaned between use.

Musical Equipment/Instruments – To the greatest extent possible, instruments should not be shared between pupils and if sharing is required, the instruments should be cleaned between uses.

Library Policy – Where practical pupils should have their own books. Textbooks that are shared should be covered in a wipeable plastic covering that can be wiped with a suitable household cleaning agent between uses. Pupils should be encouraged to perform hand hygiene after using any shared item.

Shared Sports Equipment – Equipment sharing is minimised and shared equipment is cleaned between uses by different people.

7. Hygiene and cleaning in school

The Department of Education has provided additional funding to schools to support the enhanced cleaning required to minimise the risks of COVID-19.

The specific advice in relation to school cleaning is set out in the HPSC advice and is covered in induction training. This advice sets out the cleaning regime required to support schools to prevent COVID-19 infections and the enhanced cleaning required in the event of a suspected cases of COVID-19. Schools are reminded to take particular care of the hygiene arrangements for hand washing and toilet facilities.

In summary, each school should be cleaned at **least once per day**. Additional cleaning is focused on frequently touched surfaces – door handles, hand rails, chairs/arm rests, communal eating areas, sink and toilet facilities.

All staff will have access to cleaning products in a classroom maintenance box and will be required to maintain cleanliness of their own work area. Under no circumstances should these cleaning materials be removed from the building.

Staff should thoroughly clean and disinfect their work area before and after use each day.

There is regular collection of used waste disposal bags from offices and other areas within the school facility.

Staff must use and clean their own equipment and utensils (cup, cutlery, plate etc.)

Cleaning/Disinfecting rooms where a pupil/staff member with suspected COVID-19 was present

The room should be cleaned as soon as practicably possible.

Once the room is vacated the room is reused until the room has been thoroughly cleaned and disinfected and all surfaces are dry.

Disinfection only works on things that are clean. When disinfection is required it is always as well as cleaning.

The person assigned to cleaning should avoid touching their face while they are cleaning and should wear household gloves and a plastic apron.

The environment and furniture is cleaned using disposable cleaning cloths and a household detergent followed by disinfection with a chlorine-based product (household bleach).

Special attention is paid to frequently touched surfaces, the back of chairs, couches, door handles and any surfaces that are visibly soiled with body fluids.

Once the room has been cleaned and disinfected and all surfaces are dry, the room can be reused.

If a pupil or staff diagnosed with COVID-19 spent time in a communal area like the staffroom, play area or if they used the toilet or bathroom facilities, then the areas are cleaned with household detergent followed by a disinfectant (as outlined in the HPSC interim health advice) as soon as is practically possible.

7. Dealing with a Suspected Case of COVID-19

Staff or pupils should not attend school if displaying any symptoms of COVID-19. The following outlines how a school should deal with a suspected case that may arise in a school setting.

There are two designated isolation areas identified within the school building to deal with the possibility of having more than one person displaying signs of COVID-19. The designated isolation area is behind a closed door and away from other staff and pupils.

If a staff member/pupil displays symptoms of COVID-19 while at school the following are the procedures to be implemented:

- If the person with the suspected case is a pupil, the parents/guardians should be contacted immediately;
- Isolate the person and have a procedure in place to accompany the individual to the designated isolation area via the isolation route, keeping at least 2m away from the symptomatic person and also making sure that others maintain a distance of at least 2m from the symptomatic person at all times;
- The isolation area does not have to be a room but if it is not a room it should be 2m away from others in the room;
- If it is not possible to maintain a distance of 2m, a staff member caring for a pupil should wear a face covering or mask. Gloves should not be used as the virus does not pass through skin;
- Provide a mask for the person presenting with symptoms. He/she should wear the mask if in a common area with other people or while exiting the premises;
- Assess whether the individual who is displaying symptoms can immediately be directed to go home/be brought home by parents who will call their doctor and continue self-isolation at home;
- Facilitate the person presenting with symptoms remaining in isolation if they cannot immediately go home and facilitate them calling their doctor. The individual should avoid touching people, surfaces and objects. Advice should be given to the person presenting with symptoms to cover their mouth and nose with the disposable tissue provided when they cough or sneeze and put the tissue in the waste bag provided;
- If the person is well enough to go home, arrange for them to be transported home by a family member, as soon as possible and advise them to inform their general practitioner by phone of their symptoms. Public transport of any kind should not be used;
- If they are too unwell to go home or advice is required, contact 999 or 112 and inform them that the sick person is a Covid-19 suspect;
- Carry out an assessment of the incident which will form part of determining follow-up actions and recovery;
- Arrange for appropriate cleaning of the isolation area and work areas involved

The HSE will inform any staff/parents who have come into close contact with a diagnosed case via the contact tracing process. The HSE will contact all relevant persons where a diagnosis of COVID-19 is made. The instructions of the HSE should be followed and staff and pupil confidentiality is essential at all times. School staff should be encouraged to download the HSE COVID-19 tracker app to assist Public Health for contact tracing purposes. Both in and out of the school setting.

9. Special Educational Needs

Additional considerations for those with Special Educational Needs

For children with special educational needs (SEN) maintaining physical distancing in many instances will not be practical or appropriate to implement. The focus should therefore be on emphasising that parents/guardians should have a heightened awareness of signs, symptoms or changes in baseline which suggests illness/COVID-19 infection and where symptoms are present children should not attend school.

Similarly, staff should be aware of their responsibility not to attend work if they develop signs or symptoms of respiratory illness.

Hand hygiene

Children who are unable to wash their hands by themselves should be assisted to clean their hands using soap and water or a hand sanitiser (if their hands are visibly clean) as outlined previously.

Equipment

Some children may have care needs (physical or behavioural) which requires the use of aids and appliances and/or medical equipment for example toileting aids, moving and handling equipment, respiratory equipment. Where cleaning of aids and appliances is carried out in the school it is recommended that a cleaning schedule is provided, detailing when and how the equipment is cleaned and the cleaning products to be used in accordance with the manufacturers' instructions.

The following points can guide the development of such cleaning schedule:

- Equipment used to deliver care should be visibly clean;
- Care equipment should be cleaned in accordance with the manufacturers' instructions. Cleaning is generally achieved using a general-purpose detergent and warm water.
- Equipment that is used on different children must be cleaned and, if required, disinfected immediately after use and before use by another child e.g. toileting aids;
- If equipment is soiled with body fluids:
 - First clean thoroughly with detergent and water;
 - Then disinfect by wiping with a freshly prepared solution of disinfectant;
 - Rinse with water and dry.

10. Staff Duties

Staff have a statutory obligation to take reasonable care for their own health and safety and that of their colleagues and other parties. The cooperation and assistance of all staff is essential to reduce the risk of spread of COVID-19 and to protect health and safety as far as possible within the school. All staff have a key role to play. In this regard and in order to facilitate a safe return to work, these duties include, but are not limited to, the following:

- Adhere to the School COVID-19 Response Plan and the control measures outlined.
- Complete the RTW form before they return to work.
- Must inform the principal if there are any other circumstances relating to COVID19, not included in the form, which may need to be disclosed to facilitate their safe return to the workplace.
- New staff must complete COVID-19 Induction Training and any other training required prior to their return to school.
- Must be aware of, and adhere to, good hygiene and respiratory etiquette practices.
- Coordinate and work with their colleagues to ensure that physical distancing is maintained.

- Make themselves aware of the symptoms of COVID-19 and monitor their own wellbeing.
- Self-isolate at home and contact their GP promptly for further advice if they display any symptoms of COVID-19.
- Not return to or attend school if they have symptoms of COVID-19 under any circumstances.
- Follow the HSE guidance if they are identified as a close contact.
- If they have travelled outside of Ireland; in such instances staff are advised to consult and follow latest Government advice in relation to foreign travel.
- If they develop any symptoms of COVID-19 whilst within the school facility, they should adhere to the procedure outlined above.
- Keep informed of the updated advice of the public health authorities and comply with same.
- Cooperate with any public health personnel and their school for contact tracing purposes and follow any public health advice given in the event of a case or outbreak in their school
- Undergo any COVID-19 testing that may be required as part of mass or serial testing as advised by Public Health

11. COVID-19 related Absence Management

The management of a COVID-19 related absence will be managed in line with agreed procedures with the Department of Education.

12. Employee Assistance and Wellbeing Programme

The Department recognises the need for school staff wellbeing and collective self-care. Support for school staff wellbeing will be provided by Department Support Services including the PDST and CSL, as well as by the HSE's Health Promotion Team. An Occupational Health Strategy is in place as a supportive resource for individual staff members in schools. The aim of the Occupational Health Strategy is to promote the health and wellbeing of employees in the workplace, with a strong focus on prevention. The Occupational Health Strategy comprises the Employee Assistance Service and the Occupational Health Service. The Employee Assistance Service (EAS) is provided by Spectrum.Life under the logo of '*Wellbeing Together: Folláinne Le Chéile*'.

The EAS is a self-referral service where employees have access to a dedicated free-phone confidential helpline 1800 411 057 available 24 hours a day, 365 days a year providing advice on a range of issues such as wellbeing, legal, financial, mediation, management support etc. The service is also available via SMS, WhatsApp, e-mail, live chat and call back request. All points of contact for the service are qualified, accredited and experienced mental health professionals.

Where required, short-term counselling is available to employees and their families (over the age of 18 years and living at home).

The EAS also provides advice and support to managers and delivers interventions to help them deal with health and wellbeing issues in the workplace.

A bespoke wellbeing portal and app is available which offers access to podcasts, blogs, live chats and videos on topics around wellbeing and mental health, family life, exercise and nutrition. E-Learning programmes across mental health, sleep and a range of wellbeing topics are also available. In addition,

online cognitive behavioural therapy is provided. As part of the services provided by Spectrum.Life a Mental Health Promotion Manager is available to develop and deliver evidence based mental health

and wellbeing initiatives to reduce stigma and improve mental health literacy and to increase engagement with the service. Spectrum.Life also provides a series of webinars and presentations to promote wellbeing in schools.
